

5. Event Schedule & Regattas

5.1. General

The Division will publish an Event Schedule prior to January 31 for the current calendar year. The Event Schedule will be drafted by the ADCKC Technical Director and approved by the ADCKC Board of Directors. Included in the Event Schedule will be sanctioned regattas.

Drafting of the Event Schedule will be completed with consultation of the following, but not limited to, stakeholders:

- Club Coaches
- ADCKC Paddling Chair
- ADCKC Board of Directors
- ADCKC Division Officials Chair (DOC)
- Club Commodores
- Other users and stakeholders of Lake Banook

The Division will provide material and logistical support to undertake the sanctioned regattas in a safe and fair manner. The Division will attempt to schedule at least two (2) regattas for each level of age group each competitive season. The competitive season takes place between May 1 to October 31 of the calendar year.

The authority for the logistical operation of the regatta, other than officiating, is the ADCKC Technical Director. In absence of the Technical Director, the ADCKC Executive may assign Authority to a representative of the Division. ADCKC may amend non-core competition dates after review and approval by the Paddling Committee. For clarity, the following are considered core competitions:

- ADCKC Trials or Provincial Team Trials
- ADCKC Championships / Nationals Qualifying
- U12/U14 Championships
- Masters Championships

The Association's published Sprint Racing Discipline Competition Rules and the Transport Canada Safe Boating Guide will govern division regattas, except as identified in the Division policies. Any amendments to competition rules will be communicated, in writing, to the Division Officials Chair (DOC), one week prior to the first day of the regatta.
